## User Stories

1. As Jeffrey, a TEQ staff member (Talker), I would like to be able to create an account for an organization so that I can register them into the system for management.
2. As Jeffrey, a TEQ staff member (Talker), I would like to be able to modify an account for an organization so that I can change permissions and help the organizations with data recovery.
3. As Jeffrey, a TEQ staff member (Talker), I would like to be able to delete an account so that I can remove an organization that no longer holds relationship with TEQ.
4. As Kara, a TEQ staff member (High level user), I would like to be able to modify the fields of the data table so that I can reflect the changes of the iCare template on the database.
5. As Kara, a TEQ staff member (High level user), I would like to be able to add/delete a table so that I can reflect the changes to the set of iCare templates currently in use.
6. As Anna, an organization staff member, I would like to be able to upload the iCare template containing the clients' information to the system so that I can share my information to the system.
7. As Anna, an organization staff member, I would like to be able to edit my uploaded data before finally submitting to the system so that I can review my data and correct an errors.
8. As Marcus, an organization staff member, I would like to be able to see whether or not my organization has submitted our data so that I wouldn't submit the same data repeatedly.
9. As Marcus, an organization staff member, I would like to withdraw our submission during the suspect period so that I can re-submit the edited information.
10. As Kara, a TEQ staff member (High level user), I would like to be able to create reports by retrieving specific data from the database with query.
11. As Kara, a TEQ staff member (High level user), I would like to be able to review the dataset directly by applying the query so that I can test the accuracy of my query.
12. As Hank, a TEQ staff member (Mid level user), I would like to create a new report template so that I can use it in the future to create a report.
13. As Hank, a TEQ staff member (Mid level user), I would like to delete or modify generated report templates so that I can fix mistakes in a report template or discard useless report templates.
14. As Hank, a TEQ staff member (Mid level user), I would like to make a mock report from a report template so that I can review the report.
15. As Bob, a TEQ staff member (Low level user), I would like to be able to release the preset reports from the database so that I can share information with other organizations registered in the system.
16. As Bob, a TEQ staff member (Low level user), I would like to upload data so that I can add additional information into the database.

17. As Bob, a TEQ staff member (Low level user), I would like to review the report before releasing so that I can check for any errors or issues.
18. As Marcus, an organization staff member, I would like to access the released reports so that I can understand the tendency of the immigrants to assist further planning.
19. As Connor, an UTSC staff member, I would like to be able to download the data from my query as a CSV so that I can analyze it using other tools.
