Bob

- 60 years old, male
- Retired, has been volunteering at TEQ for 5 years.
- Worked at a restaurant as a chef.
- Has very basic knowledge of computers but has never used a smart device.
- Works onsite, mostly assisting with community events, rarely computer related activities.
- Works on generating reports using pre-set queries and uploads the clients' data to the system
- Has basic knowledge of Microsoft.
- Remembers simple instructions and can follow them extremely well.
- Doesn't adapt to change easily.
- Dislike the application that seems complex.

Hank

- 26 years old, male.
- Has been working at TEQ for 2 years.
- Has some idea of iCare templates, but not very familiar with it.
- Has basic skills in excel, creating functions and select fields.
- Works on querying data based on the required variables.
- Proficient at using computers and hand-held devices.
- Disconnects from internet frequently due to long travel time
- Prefer to see changes in real time
- Usually feel difficulty in analyzing the immigrants data due to lack of proper information and tools

Kara

- 30 years old, female.
- Has been working at TEQ for 10 years.
- Keeps herself updated with trending technologies.
- Works onsite on a Linux Operating System provided by the organization
- Has a good understanding of the iCare templates.
- Modifies the iCare template in the database to add more fields which can be used to query data.
- Worked at a small firm as a data analyst before joining TEQ.
- Has some programming skills gained from working with SQL and Python.
- Very busy person, taking several iterations before finishing a task.

Jeffery

- 35 years old, male.
- New hire at TEQ.
- Works with different organizations, dealing with administration work and issues for the application.
- Passes issues to technical team for fixing.
- Uses technology for basic daily tasks such as messaging or browsing the web.

- Very busy, has to deal with issues as quickly as possible.
- Good with administration using excel and word, but never used an administration tool system.

UTSC Staff

Connor

- 20 years old, male
- Second year statistics specialist student.
- Intermediate skills of Python, R, SQL, Java.
- Attended a few hackathons.
- Have worked mostly with data.
- Perform analysis on the reports generated by TEQ.
- Uses Firefox on ubuntu from school computers, sometimes onsite using their own personal computers
- Enjoys data analysis and learning how to properly structure data.
- Enjoys learning about new technology and always uses them when possible.
